

Product Requirements Doc

Target Audience & Goals

Describe your target user(s) and their goals:

User	Goals

Your App's Requested Invocation Name

Choose your Action's Invocation name (the name that users will use to reach your Action, e.g. let me talk to <your action's invocation name>”).

Your App's Persona

Design the persona of your Action. For example, is it upbeat, witty or cheeky? Does your App talk in a formal manner?

Use Cases

Describe your high-level use cases how the user interacts with your App on the phone. Add as many use cases as necessary.

Sample Conversations

Write a snippet of the expected conversation(s) that a user might have with your App for this use case.

Graphical User Interface (Optional)

In addition to information about both the VUI (voice user interface), please describe the corresponding GUI elements such as chat bubbles, list, button, suggestion chips, and cards
