

President & Founder

Antoine Rostand
President & Founder

Antoine Rostand is the President and co-founder of Kayrros, a tech start-up that uses advanced analytics and technologies to deliver greater insight into global energy markets fundamentals.

Antoine has over 25 years of experience in creating and managing global businesses in the energy sector. In his experience, Antoine has mitigated some of the most pressing issues facing global oil and gas companies.

Prior to Kayrros, Antoine was the president and founder of SBC, Schlumberger Business Consulting, where he played a pivotal role in transforming the group into a leading international management consulting firm in the energy sector. Before SBC, he managed the European office of the Consulting and System Integration division of SchlumbergerSema, and was president of Electronic Data Systems.

Antoine currently serves as a board member of the AT Kearney Energy Transition Institute. He holds an MBA from Insead and an MSc in engineering from the Ecole Polytechnique.
